## SPECIAL CATS FIND SPECIAL HOMES

Thanks to willing adopters and generous supporters, CAT is taking in and finding homes for more senior, FIV-positive, and FeLV-positive cats than ever before!

Senior cats and cats with special needs often benefit from extra medical support or foster care to help them prepare for adoption. They typically take a little longer to meet the right adopters too. But in 2021, CAT found homes for about 15.5% more senior cats and 17% more FIV-positive cats than in 2020. And adoptions for these cats have nearly doubled compared to just five years ago. What's more, twice as many FeLV-positive cats like Dusk (pictured) found homes in 2021 compared to 2020.

It's heartwarming to see more adopters open their hearts and homes to cats with special needs. We are so grateful to our CAT family for making these connections possible!
